Picture of speaker and details about them:

Profile:

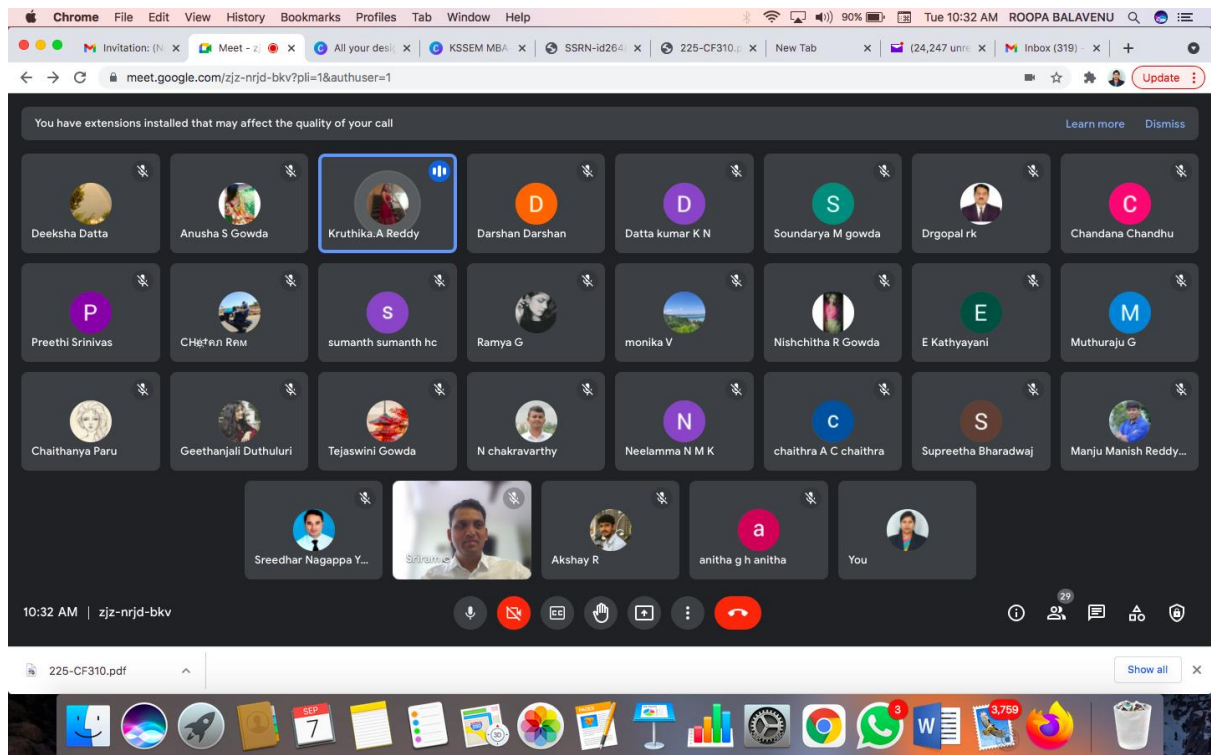

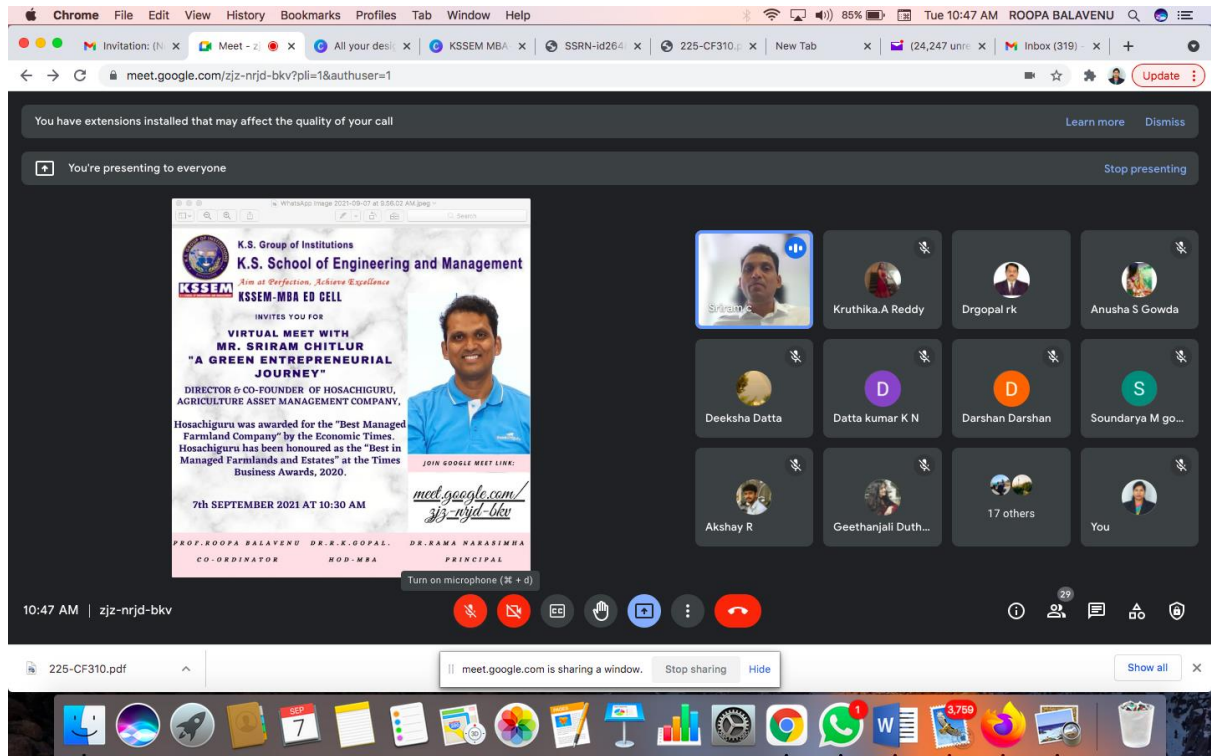

Sriram Chitlur is a green entrepreneur who leveraged his passion for agriculture, experience in technology, and understanding of business to co-found Hosachiguru with Ashok Jayanthi and Srinath Setty. Hosachiguru is an agricultural asset management company that sells managed farm plots to nature enthusiasts and offers them a hassle-free farm owning experience. These farm plots are a part of green havens consisting of agroforests and a thriving biodiversity, that aim to provide a sustainable future for generations to come.

In seven years, Hosachiguru has become a community of 500+ urban farmers.

Another dream of Sriram was to make every piece of land productive. To visualize land like never before, Sriram co-founded TalkingLands, an intricate Layout Management Solution that uses AI-enabled Location Intelligence to unlock a land's potential. TalkingLands sets up a virtual marketplace of mapped lands and layouts, where buyers and sellers can engage in real-time transactions pertaining to agricultural, residential, commercial, and industrial lands.
