## FINANCIAL PLANNING

Department of Computer Science and Business Systems organized a technical talk on “Financial planning” for 4th semester students on 03/07/2024.

Mr. G. Hari Venkatesh, is a renowned financial planner with expertise in helping individuals and organizations navigate complex financial landscapes. His talk covered essential principles and strategies for building a solid financial foundation.

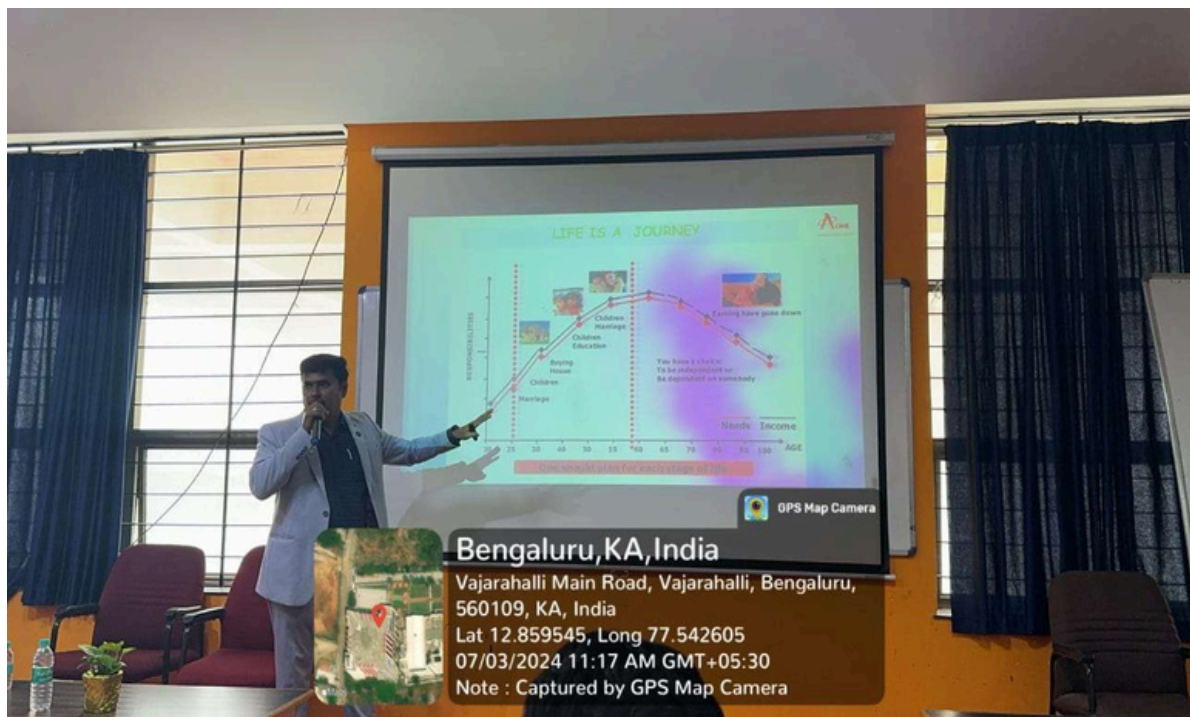

Mr. G. Hari Venkatesh, initiated the session by explaining about how effectively one can manage their financial situation. He also explained about the importance of goal-setting. He highlighted the role of disciplined saving, diversified investing, and proactive debt management in achieving financial freedom.

He stressed the need for setting SMART financial goals—specific, measurable, achievable, relevant, and time-bound—to provide clarity and direction in financial planning. Examples included saving for retirement and funding children's education.

Mrs. Frinkly Sathanga Shanija T , Assistant Professor, Department of CS & BS coordinated the event.

Introduction of the guest Mr. Hari Venkatesh, financial planner at ASSETBLOOM Financial services, LLP.
