DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

Department of Artificial Intelligence organized workshop on Data Analytics for IV Semester students. It was conducted by Mevi Technologies LLP which is AICTE and MSME Registered and ISO Certified.

Workshop Objectives:

This workshop provides comprehensive training in data analytics using Python, covering essential concepts, tools, and techniques necessary for analyzing and interpreting data effectively. Through hands-on exercises and projects, learners will develop proficiency in Python programming, understand the fundamentals of data, and learn how to visualize and analyses real-world datasets. Additionally, the course covers connecting Python with SQL databases, enabling learners to retrieve and manipulate data directly from databases for analysis. By the end of the course, learners will possess the skills and knowledge required to tackle various data analytics tasks, from data preprocessing and visualization to statistical analysis and hypothesis testing, preparing them for careers in data analysis and related fields.

Resource Person :

Megha B S, an MSc graduate in Data Science from Chandigarh University, is a certified Python Trainer. With a strong background in web development using Python, Django Full stack, and C# MVC, she has trained over 40,000 students in Python, Machine Learning, AI, BI, Data Science, and Django. As a dynamic educator, Megha blends theoretical knowledge with practical insights, ensuring her students are well-prepared for the tech industry. Her commitment to staying current with technological trends, coupled with a passion for education, makes her a sought-after mentor. Megha's holistic approach to training and her expertise in Python position her as a key influencer in shaping the next generation of tech professionals.

Feedback :

Feedback from students' is positive.
