DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

Department of **Artificial Intelligence and Data Science** in association with **CSE, CS&BS** and **ECE** organized a workshop on “Applied Artificial Intelligence-Practical Implementation” for VI Semester students.

Workshop Objective:

- **Develop Effective Communication Skills** – Enhance public speaking, presentation abilities, and group discussion participation.
- **Enhance Job Readiness** – Guide participants in resume building, understanding job descriptions, and leveraging LinkedIn for job searches.
- **Strengthen Critical Thinking & Problem-Solving** – Improve decision-making and analytical skills for workplace challenges.
- **Encourage Innovation & Adaptability** – Introduce design thinking to promote creative problem-solving in dynamic work environments.
- **Boost Interview Performance** – Provide mock interview experiences to refine responses, body language, and professional confidence.

Resource Person:

Ruchi Raman Gupta, an **NSDC-certified Soft Skills Trainer**, specializes in **communication skills, emotional intelligence, leadership development, and negotiation skills**. She has trained **over 5,000 individuals** across corporate and educational sectors using **interactive methods like role-plays and case studies**.

Akarsh Ramachandra, with **7+ years of experience**, has trained **50,000+ students and 1,000+ faculty members** in **soft skills, verbal aptitude, and professional development**. He has contributed to **STEM education, curriculum design, and public speaking training** while integrating **theatre and creative storytelling** into his sessions.

Feedback:

Feedback from students is positive.
