**Introduction**

In today's rapidly evolving professional environment, effective communication and creative thinking are just as essential as technical proficiency. To bridge this gap and nurture well-rounded individuals, we propose the formation of a Literary and Communication Club within the Department of Artificial Intelligence and Data Science at K S School of Engineering and Technology.

**Objectives**

- To enhance students' communication and presentation skills.
- To develop creative writing, debating, and public speaking abilities.
- To instill leadership, teamwork, and organizational capabilities.
- To provide a platform for self-expression and critical thinking.
- To contribute to the cultural and intellectual atmosphere of the department.
