

ABOUT THE INSTITUTION

The Kammavari Sangham, a multi-activity non-profit oriented voluntary service organization, was established in the year 1952 with the sole objective of providing charitable service to community and society. The Sangham has diversified its activities since its establishment over five decades ago. With a firm belief that quality and meaningful education only can lay the strong foundation for bringing about economic and social changes to the lives of thousand, the Sangham went about establishing educational institutions, starting with K.S. Polytechnic in 1992. Enthused with this success of its foray into technical education, the Sangham then started the K.S Institute of Technology (KSIT), its first Engineering College in the year 1999. Following the success of KSIT, the Sangham ventured onwards to start yet another technical institution, oriented towards advanced studies and research, and thus, the K.S Group of Institutions (KSGI) was born in 2010. KSGI was renamed as K.S.School of Engineering & Management in 2011. K.S.School of Architecture was established in the year 2015 and followed by K S P U College in the year 2022.

ABOUT THE DEPARTMENT

Department of Civil Engineering is established in the year 2010 and offers four-year undergraduate course leading to Bachelor's degree in Civil engineering affiliated to Visvesaraya Technological University, Belgaum. Department of Civil Engineering also offers Masters in Structural Engineering program since 2013. Research centre has been established in the year 2016-17 with more than 10 research scholars. The Department aims at producing eminent Civil Engineers for the Nation and across the Globe. The Department has eminent faculty with wide range of experience in consultancy, research, teaching, training and field experience which will help the students to gain practical knowledge which is very essential for their future endeavours.

AIM OF THE FDP

- To throw light on the challenges faced by women in STEM and sensitize on the opportunities available for them.
- The speakers will share their experience with the audience on how to overcome the psychological and physiological barriers.
- This conference also aims at changing the mind-set of the policy makers, employers, colleagues, students and society at large.
- Gender equality will bring new perspective to the industry and provide better future for Indian women in STEM.

PATRONS
