#15, Near Vajrahalli, Mallasandra, Kanakapura Road, Bengaluru-560109

Report

The Department of Civil Engineering, K S School of Engineering and Management had organized a One Day visit to "STONA 2023", 15th International Granite and Stone Fair in Bengaluru on 17th of February 2023 for third semester students. 18 students along with 2 faculty attended the visit.

STONA 2023 was organized by Federation of Indian Granite and Stone Industry (FIGSI) from 15th to 18th February 2023 at Bangalore International Exhibition Centre located at NH-4, Tumkur Road, Bengaluru, India. STONA - International Granites and Stone Fair is an exhibition showcasing the unique range of country's colorful, eye-catching natural Stones and a platform that helps in demonstrating the capabilities, capacity and the most modern and latest techniques in the craft of Stone working.

STONA served as a great single window that projected India's stones, products & the creative ability to make and supply anything to everything. From Dimensional blocks, Slab, Tiles, monuments, Artifacts, Landscaping, Paving, Cylindrical Pillars, Machinery, Equipments, to showcasing the latest technology. The exhibition provided an excellent and unique opportunity to showcase products in an increasingly competitive environment and interact with industry people from Italy, China, Turkey, Egypt, Japan, Korea, Portugal & other European countries. There was participation from all major Stone industry and machinery manufacturers from all over India and also State Governments will also showcase the varieties of natural Stones available in that particular state.

Objectives of the Visit:

- To make the students aware of the varieties of natural stones and granite used in the construction industry all over the world.
- To make the students aware of the modern equipments, tools and latest techniques used in the craft of Stone working.

Outcomes of the Visit:

- Students were exposed to the different types of stones and granite used in the construction industry all over the world.
- They learned about the varieties of stone available in different states of India, different chemicals, admixtures and adhesives in use currently in the modern construction industry.
- They learned about the various machineries and equipment used for stone craft in the construction industry.
- They learned about the latest techniques and modern tools used for the production of slabs, tiles and blocks.
