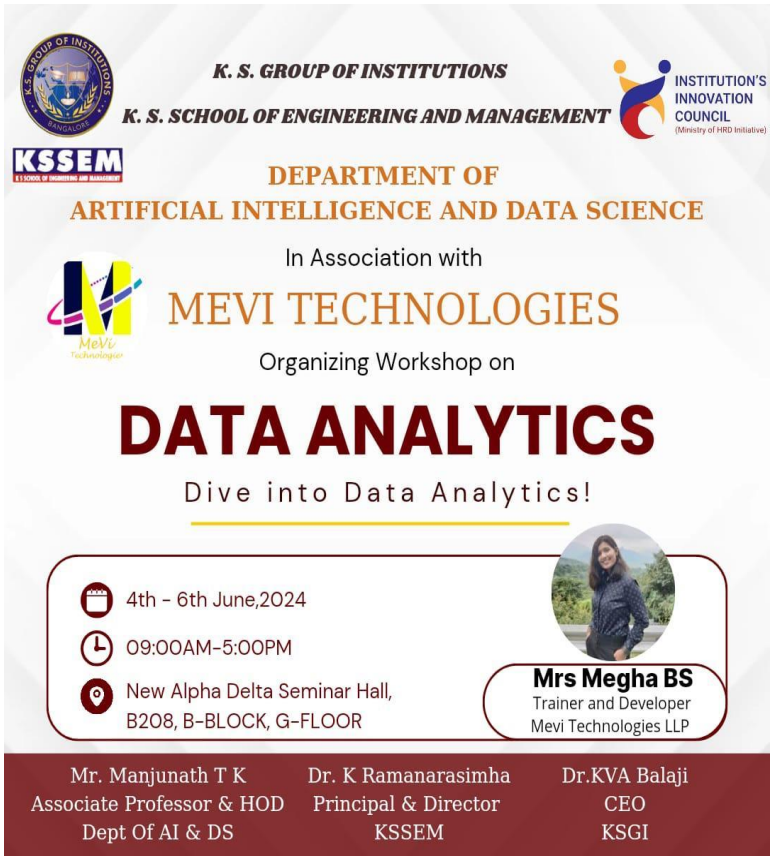
Date of Event : **04-06-24 to 06-06-24**

Venue : Alpha-Delta Seminar Hall, Dept of AI & DS

Number of participants : 66

Targeted Audience : IV Semester, Dept of AI & DS



Department of Artificial Intelligence organized workshop on Data Analytics for IV Semester students. It was conducted by Mevi Technologies LLP which is AICTE and MSME Registered and ISO Certified.

Objective :

This workshop provides comprehensive training in data analytics using Python, covering essential concepts, tools, and techniques necessary for analyzing and interpreting data effectively. Through hands-on exercises and projects, learners will develop proficiency in Python programming, understand the fundamentals of data, and learn how to visualize and analyze real-world datasets. Additionally, the course covers connecting Python with SQL databases, enabling learners to retrieve and manipulate data directly from databases for analysis. By the end of the course, learners will possess the skills and knowledge required to tackle various data analytics tasks, from data preprocessing and visualization to statistical analysis and hypothesis testing, preparing them for careers in data analysis and related fields.

Resource Person :

Megha B S, an MSc graduate in Data Science from Chandigarh University, is a certified Python Trainer. With a strong background in web development using Python, Django Full stack, and C# MVC, she has trained over 40,000 students in Python, Machine Learning, AI, BI, Data Science, and Django. As a dynamic educator, Megha blends theoretical knowledge with practical insights, ensuring her students are well-prepared for the tech industry. Her commitment to staying current with technological trends, coupled with a passion for education, makes her a sought-after mentor. Megha's holistic approach to training and her expertise in Python position her as a key influencer in shaping the next generation of tech professionals.

Feedback :

Feedback from students’ is positive.

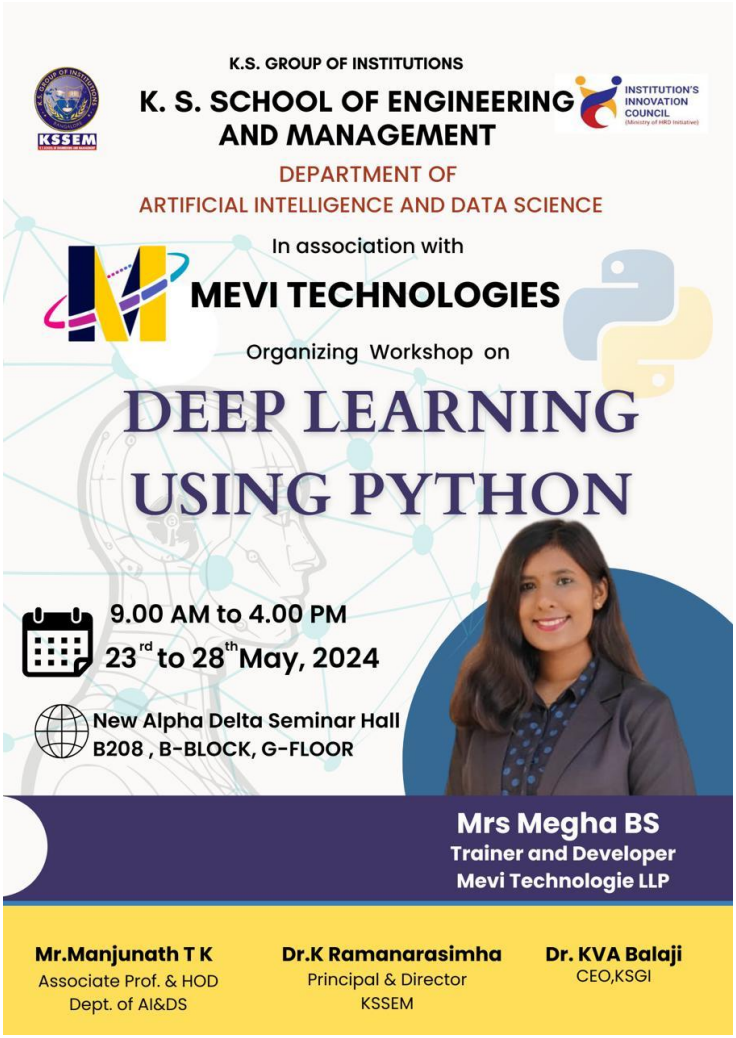
Objective : To enhance skills of students



Department of Artificial Intelligence organized workshop on Deep Learning for VI Semester students. It was conducted by Mevi Technologies LLP which is AICTE and MSME Registered and ISO Certified.

Objective :

Understand the fundamentals of deep learning, neural networks, and NLP. Learn how to preprocess and prepare both image and text data for deep learning tasks. Explore popular deep learning architectures such as Convolutional Neural Networks (CNNs), Recurrent Neural Networks (RNNs), and Transformers. Gain proficiency in using deep learning frameworks such as Tensor Flow nd Kera's for both image and text data. Implement a variety of deep learning applications including image classification, object detection, sentiment analysis, and text generation. Develop skills in model evaluation, tuning, and deployment for both image and text data.

Technical Session on
"Artificial Intelligence, its Aspects and Applications"

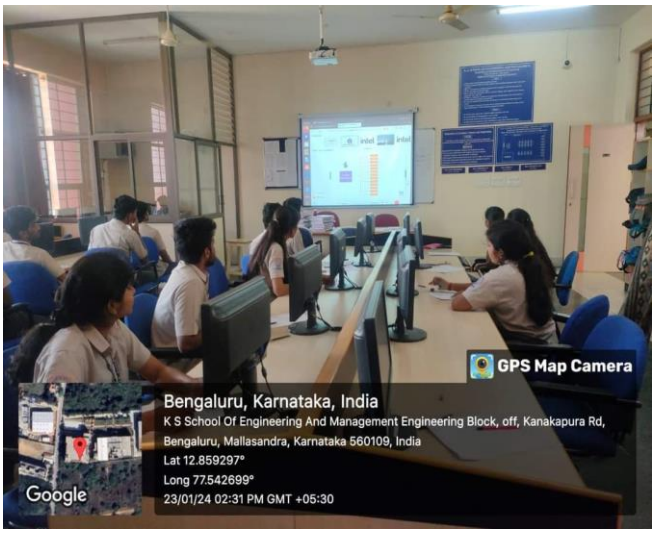
The Department of Computer Science and Engineering, KSSEM has organized Student Enablement Program for 3 days titled Technical Session on "**Artificial Intelligence, its Aspects and Applications"** in association with **Infosys**from **23**rdJanuary 2024 to 25th January 2024 from 2:00 PM to 3:00 PM, for the students of 3rd and 5th Semester, CSE and 3rd semester students of CS & BS.

The event was held online through Infosys Springboard platform.

The objective of the workshop is to upskill the students of educational institutions on Artificial Intelligence, its applications and enable them to take up relevant certification to accredit their learning. This will benefit student community by making them industry ready.

Day 1: Introduction to Artificial Intelligence

This session handled by the resource person Ms. Girija T R, Infosys and she briefed on demystify Intelligent Systems, explore new class of business problems that need “Intelligent Solutions”. This session also explained technical overview on AI and made the students realize the importance of AI in Business. It also helped the students to know the different AI platforms.



Day 2: Introduction to Natural Language Processing

The resource person for Day 2 was Ms. Pruthvi Adishesha, Infosys. The session explained, what natural language processing is and appreciate how it is changing our lives today. Students were given insights on various techniques used in the field of NLP and also articulated the business potential of using NLP. It also gave the comparison of different software platforms/tools/frameworks used to build NLP solutions.

Day 3: Introduction to Deep Learning

Mr. Kannaswamy was the speaker for Day 3. He explained: What is Deep Learning? Why it is used? and How it is used? Also, the session gave insights on the impact of Deep Learning in today's world.

Each day was followed by an assessment for certification. These tests gauged participants' knowledge across the topics, providing valuable insights into areas of strength and areas that might require additional focus. Students should take up a final video proctored certification that is a value addition to their resumes.

Workshop on

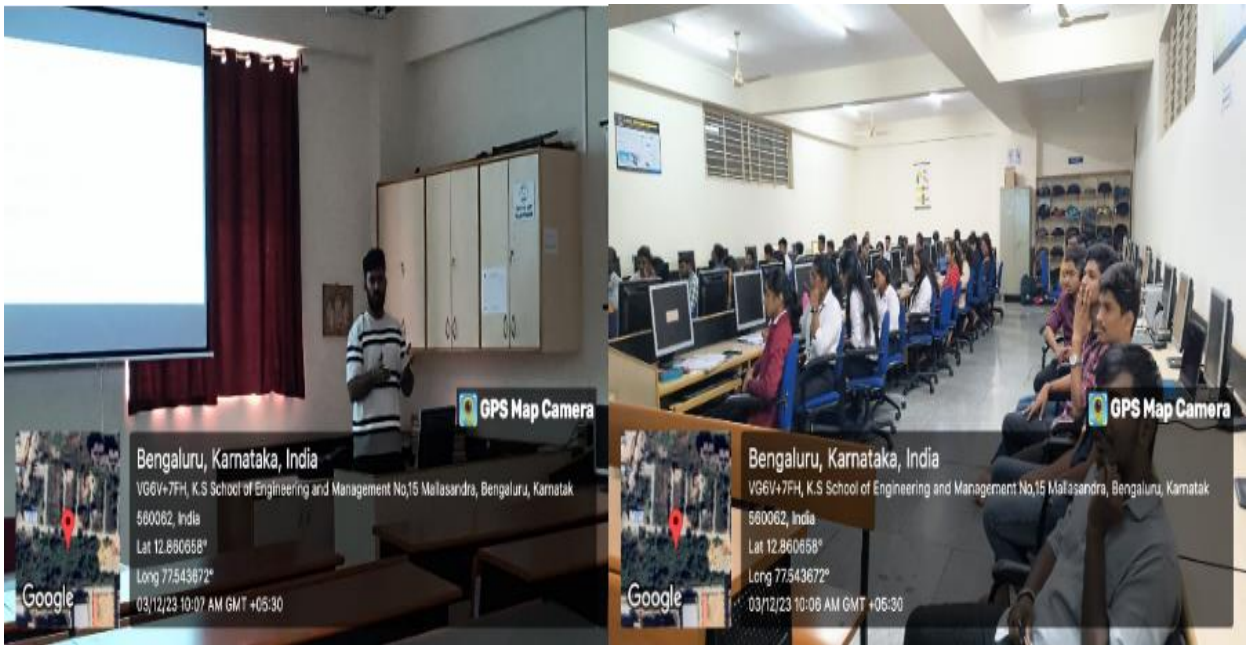
"Microsoft Azure – Fundamentals"

The Department of Computer Science and Engineering, KSSEM in association with Microsoft has organized 4-days Workshop on 25th, 26th November, 2nd and 3rd December 2023.

The workshop was inaugurated by Dr. K. RamaNarsimha, Principal and Director of KSSEM, Dr. K Venkata Rao, Professor and Head of CSE, and Faculty of CSE Department, KSSEM. The Resource persons for the workshop were, Mr. Shreyas Ramakrishna, Senior Industry Trainer, IN-BIOT and Mr. Pulastya Pandey, Senior Industry Trainer, IN-BIOT.

Day 1: Introduction to Cloud and its types and services

On the inaugural day of the intensive 4-day Microsoft Azure workshop, participants delved into the fundamental concepts of cloud computing, laying a robust foundation for the subsequent learning journey. The session commenced with a comprehensive exploration of the overarching advantages of cloud computing, elucidating its transformative impact on modern businesses. The instructors provided insightful perspectives on the diverse types of cloud services, encompassing Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS), enabling participants to grasp the spectrum of cloud-based solutions available in the Microsoft Azure ecosystem.The instructors navigated through Azure's architecture, emphasizing its role in facilitating seamless integration, high availability, and optimal performance. The practical aspects of these concepts were reinforced through hands-on exercises, fostering a dynamic and engaging learning environment.



The session successfully set the stage for the subsequent days of the workshop, equipping participants with a solid understanding of cloud fundamentals and Azure's core architecture. Overall, the first day provided an insightful and comprehensive initiation into the world of Microsoft Azure, instilling a sense of anticipation for the forthcoming days of immersive learning and practical application.

Day 2: Mastering Azure Pillars: A Deep Dive into Compute, Networking, Storage, Identity, Security, and Cost Management

The second day of the Microsoft Azure workshop proved to be an enriching continuation of our exploration into the Azure ecosystem, focusing on key pillars of cloud computing. The day commenced with an in-depth study of Azure Compute services, elucidating the deployment and management of virtual machines, containers, and serverless computing resources.The workshop seamlessly transitioned into the realm of Azure Networking Services, where participants acquired knowledge about creating and managing virtual networks, implementing load balancing, and securing network communication. The intricacies of Azure's networking capabilities were demystified, providing a solid foundation for constructing robust and secure cloud architectures. The latter half of the day was dedicated to understanding Azure Identity, Access, and Security features. Participants delved into the implementation of Azure Active Directory, configuring identity solutions, and enforcing security measures to safeguard cloud resources. This comprehensive overview equipped participants with the tools necessary to ensure the integrity and confidentiality of data within Azure.The day concluded with a strategic exploration of Azure Cost Management, emphasizing the importance of optimizing resources and monitoring usage to manage costs effectively. Understanding the financial aspects of cloud services became integral for participants, ensuring they could strike a balance between resource allocation and budget constraints. The combination of theoretical insights and practical applications set a strong precedent for the subsequent days, propelling participants further into the intricacies of Microsoft Azure.

Day 3: Governance, Deployment, and Management Tools for Cloud Excellence

The third day of our Microsoft Azure workshop unfolded with a comprehensive exploration of governance and compliance features, as well as tools integral to maintaining regulatory adherence within the Azure cloud environment. The importance of aligning Azure resources with regulatory frameworks and internal policies was underscored, emphasizing the significance of a secure and compliant cloud infrastructure. Following this, the focus shifted to features and tools for managing and deploying Azure resources effectively. The participants were introduced to Azure Resource Manager (ARM) templates, enabling them to automate the deployment of resources and consistently enforce configurations. Practical exercises provided hands-on experience in creating, customizing, and deploying templates, empowering participants to implement infrastructure as code principles and enhance resource deployment efficiency. The latter part of the day was dedicated to exploring various management tools available within the Azure ecosystem. Participants gained proficiency in tools like Azure Monitor for tracking performance metrics & Azure Log Analytics for deep insights into operational data. In summary, day three of the workshop focused on empowering participants with the knowledge and skills to establish effective governance and compliance measures within Azure, automate resource deployment through advanced tools, and leverage management tools for monitoring, analysis, and optimization. The day provided a strategic blend of theoretical

understanding and practical application, equipping participants to navigate the complexities of Azure governance and resource management with confidence.

Day 4: Revisiting Key Concepts and &Sample Tests to check our understanding

The fourth and final day of our Microsoft Azure workshop marked a culmination of our intensive learning journey, focusing on reinforcing key concepts and evaluating our preparedness for the AZ-900 certification. The day commenced with thorough revision sessions, allowing participants to revisit fundamental Azure concepts, methodologies, and best practices covered in the preceding days. Instructors provided clarifications, addressed queries, and ensured that participants had a solid grasp of the essential elements required for success in the AZ-900 certification exam. To assess and fortify our understanding, the day featured sample tests designed to simulate the conditions of the actual certification exam. These tests gauged participants' knowledge across a spectrum of Azure topics, providing valuable insights into areas of strength and areas that might require additional focus. The day fostered a collaborative learning environment, allowing participants to engage in discussions, share insights, and seek clarification on any lingering doubts. Instructors actively facilitated the review process, ensuring that each participant felt adequately prepared and equipped

for success in the AZ-900 certification. In essence, day four encapsulated a holistic approach to exam preparation, combining targeted revision, interactive sessions, and realistic sample tests to assess and enhance participants' readiness for the AZ-900 certification.

Report on

Hands on Training on Interfacing of Sensors

Organized by IEEE Student Branch, KSSEM

In association with IEEE Bangalore section.

Topic: Hands on Training on Interfacing of Sensors

Date of event: 8th June, 2024 to 9th June 2024.

Venue: Aryabhatta Seminar Hall, Dept of ECE, KSSEM

Number of participants: 80

Targeted Audience: 2nd year ECE students

Event Coordinator: Mr Syed Waseem Tabraiz and Mrs. Tejaswini G V, Assistant Professor, Dept of ECE, KSSEM

The IEEE Student branch in association with the ECE department, of KSSEM, had organized a Hand on training on, "**Interfacing of Sensors**" on 8th June, 2024 to 9th June 2024 at 9:30am IST.

The Department of Electronics and Communication organized a workshop on the "Introduction to Sensors" for 4th semester ECE students. The workshop was led by the founders of Inversa Technosoft, Mr. Bharath and Mr. Rahul. Dr. K. Senthil Babu, Professor and Head of the Department of Electronics and Communication, graced the occasion by introducing and welcoming the delegates and officially declared the workshop open.

The Arduino workshop aimed to provide participants with hands-on experience in using Arduino microcontrollers and various sensors and actuators. Throughout the workshop, attendees explored the

fundamentals of Arduino programming and circuitry design while working on exciting projects such as temperature sensing, ultrasonic sensing, servo motor control, and line-following robotics.

The objective of the training is given below;

- To introduce the students to various commonly used sensors and their working principles;
- To interface the sensors with microcontrollers and write simple code to acquire data from the sensors.
- To formulate applications based on the knowledge acquired.

Introduction to Arduino Microcontroller

Arduino is an open-source project that created microcontroller-based kits for building digital devices and interactive objects that can sense and control physical devices.

Different types of Arduinos

1) **UNO and MKR** is fairly beginner friendly, with the more expensive MKR offering greater connectivity (WiFi and Bluetooth) options.
2) **Mega** is good for robotics projects, including CNC machines and 3D printers.
3) **Nano** families are cost effective alternatives to the MKR, and are good for networks of sensors.
4) **Due** is good for efficient graphics and sound processing.
5) **Leonardo and Micro** are good alternatives to the UNO, particularly for USB connectivity.
6) **Yun** offers an embedded Linux system which can function as a multi-tasking server
7) **Portenta** is incredibly powerful.

Day 1

The workshop began with an introduction to the basics of Arduino. Students were familiarized with the Arduino architecture, coding patterns, and programming techniques. After covering the basics, each group of students was given a kit containing multiple sensors and other components. This hands-on approach helped students understand how sensors work in practice.

The first session focused on how to light up an LED. Following this, students learned how to light LEDs of three different colors—red, blue, and green—and how to create various combinations of these colors. The students were then introduced to several other sensors.

Light Dependent Resistor (LDR): LDRs are used to measure the intensity of light and detect the presence or absence of light in an environment. Their resistance decreases with increasing light intensity, making them ideal for applications like automatic lighting systems and light level meters.

Moisture Sensor: These sensors measure the moisture level in the soil by using probes to detect the electrical resistance of the soil, which changes with moisture content. They are commonly used in agricultural applications for irrigation management and in gardening to ensure optimal soil moisture for plant growth.

Raindrop Sensor: Raindrop sensors detect the presence of raindrops by using a conductive surface that changes resistance when wet. They are used to measure rainfall and can be integrated into weather stations, automatic windshield wipers, and smart irrigation systems to respond to rain conditions.

Infrared (IR) Sensor: IR sensors emit infrared light and detect the reflected light from objects to determine proximity, detect motion, and measure distance. They are widely used in security systems, remote controls, obstacle detection in robots, and automatic doors.

Each sensor's real-life practical applications were discussed, enhancing the students' understanding of their utility in everyday scenarios.

The first day of the workshop concluded with a session on writing code for a bot that can turn left, turn right, and move forward and backward. To sum up, the first day was very informative and fun-filled, providing students with a hands-on approach to deal with basic sensors. Overall, Day 1 of the workshop was a great success, offering valuable practical knowledge and experience to the students.

Day 2

The day started with the introduction and applications of additional sensors, namely;

Temperature sensor: Participants learned how to interface a temperature sensor with the Arduino board and read temperature values using analog or digital pins. This session provided insights into real-time data acquisition and monitoring applications.

Sonar Temperature: The workshop covered the integration of ultrasonic sensors with temperature measurement. Sonar temperature sensing combines ultrasonic distance measurement with temperature sensing, enabling participants to measure temperature at a distance using sound waves.

This application is useful for non-contact temperature monitoring in industrial or environmental settings.

Servo Motor Control: Participants learned how to control servo motors using Arduino. By understanding pulse width modulation (PWM) and servo motor control signals, attendees could precisely manipulate the position of servo motors. This knowledge is crucial for developing robotic systems, automated actuators, and remote-controlled devices.

Line Follower Project: One of the highlight projects was the Line Follower Robot. Participants were tasked with designing and programming a robot capable of autonomously following a predefined path using infrared (IR) sensors. The project encompassed sensor calibration, PID (Proportional-Integral-Derivative) control algorithm implementation, and real-world testing. Through this project, attendees gained insights into robot navigation, sensor fusion, and algorithm optimization.

Fig 1. Inauguration of Hands on training on interfacing of sensors

Fig 2. Students Interfacing various sensors and to Arduino

Fig 3. Guest Speaker, Faculties and Students present in the Event

Competition

To culminate the workshop, a competition was held where participants showcased their Line Follower Robots. The competition challenged teams to demonstrate the speed, accuracy, and robustness of their robots in following a complex line course. Using IR sensors, the robots navigated through twists, turns, and intersections with minimal human intervention. The competition fostered friendly rivalry and encouraged participants to apply their skills in a competitive environment.

Conclusion

The Arduino workshop provided participants with a comprehensive understanding of microcontroller programming, sensor integration, and robotics applications. Through hands-on projects such as temperature sensing, servo motor control, and the Line Follower Robot, attendees gained practical experience and valuable insights into the world of Arduino-based prototyping and automation. The workshop not only equipped participants with technical skills but also fostered creativity, problem-solving, and teamwork essential for future endeavors in the field of electronics and robotics.

DEPARTMENT OF MECHANICAL ENGINEERING

Report-Technical Talk on "Industrial Safety"

Industrial safety is paramount in any manufacturing or production environment. Ensuring a safe workplace not only protects the workforce but also enhances productivity and reduces operational costs related to accidents and downtime. This technical talk aims to discuss various aspects of industrial safety, including its importance, best practices, and emerging technologies.

By keeping the importance of industrial safety in mind, **Department of Mechanical Engineering** organized a **Technical Talk on "Industrial Safety".** The details of this program are as follows,

Technical Talk on "Industrial Safety"

Speaker	Mr. Mangesh G Jadhav Deputy manager- safety Toyota Kirloskar Auto Parts Pvt Ltd Bidadi, Ramanagara, Karnataka
Date	30th December 2023
Time	11 am- 12 pm
Venue	K S School of Architecture Seminar Hall, KSSEM Campus
No of participants	141
Registration link	https://forms.gle/xYQNBLH71bKmXSHC6
Feedback link	https://forms.gle/J2FqDZxLetopLtiZ8
Topics covered	About TKAP Various types of Hazards Identified Hazards @ TKAP Safety measures to be followed in Hazard environment

Speaker profile

Mangesh G . Jadhav

B. Tech. Mech. Engg.
1998
Dr.Babasaheb Ambedkar Technological University,Raigad,Maharashtra

Advance Diploma in Industrial Safety
2006
Central Labor Institute ,DGFASLI, Mumbai,Maharashtra

Designation	: Deputy Manager – Safety Section
Company Name	: Toyota Kirloskar Auto Parts Pvt. Ltd.
Experience in TOYOTA	: 17 Years

Present Responsibility

Implement and drive **Occupational Safety health Management System**

Plan and Execute various **Safety Training & Safety Awareness programme**

Implement & Ensure **Machine Safety Assurance & Fire Risk Assessment**

Train and Conduct **Hazard Identification & Risk Assessment** for all operations

Plan and Execute **Emergency Preparedness Programme**

Ensure legal Compliance **<Factories Act 1948, Karnataka Factories Rule 1969>.**

Accident Investigations , Analysis and Implement Counter measure

Previous Experience:

Safety Engineer- 1 years

L& T ECC Division, Hyderabad, Telangana.

Project Engineer- 2 years

Hemmo Pharmaceuticals Pvt. Ltd.,Mahape MIDC,Navi Mumbai, Maharashtra

Maintenance Engineer- 4 years

Aarti Drugs Pvt. Ltd.,Tarapur MIDC, Maharashtra.

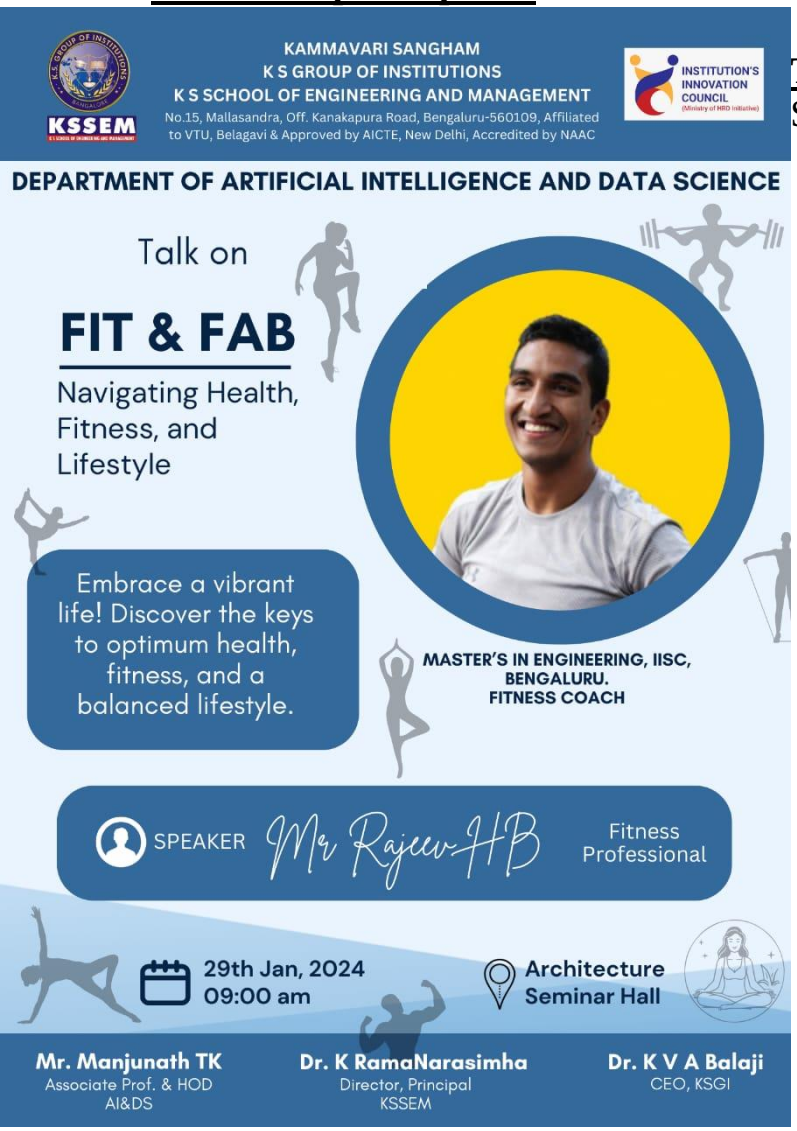
DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

Event name : **Expert Talk on Health, Nutrition & Fitness**

Date of Event : **29.01.2024**

Venue : **Architecture Seminar Hall**

Number of participants : 66



Targeted Audience : III Semester, Dept of AI & DS

VTU as part of 2022 scheme introduced a subject "Physical Education (Sports & Athletics) " to create consciousness among students on health, fitness and wellness in developing and maintaining healthy lifestyle.

The Department of Artificial Intelligence and Data Science organized expert talk on health, nutrition and fitness as part of sports curriculum for III Semester students. It was also attended by V semester students.

Resource Person : Mr. Rajeev H B

The expert Mr. Rajeev H B, Fitness coach invited for this talk is a B.Tech graduate from PESIT and Master's in Engineering from IISc, Bangalore. He is certified Zumba Intructor, Strength and conditioning coach, Advanced Physique Transformation coach.
As part of talk, expert covered six pillars of wellness -

- Physical fitness
- Diet and Nutrition
- Managing Stress Well
- Optimum Sleep
- Removal of toxins
- Belongingness

He also discussed the principles to build most optimal workout routine that is realistic and achievable. It is which is depicted by inverted triangle.

- Volume -
- Intensity -
- Frequency

Students were also engaged in push ups, squats, jumping jacks, planks.
Students feedback on expert talk was positive.

Sports Activity Report

The Department of Electronics and Communication organized a sports activity for 3rd semester students as a part of the VTU 2022 scheme curriculum activity, along with 5th semester students also on **15th February 2024** (Thursday) from 9 AM to 3: 45PM. The event was named **Sports Spree** and was inaugurated by our beloved Principal Dr. Rama Narasimha.K, ECE Head of the Department, Dr. K Senthil Babu, and with the presence of other department heads of the department, faculty members, and students.

A Sport is an activity involving physical exertion and skill in which an individual or team competes against another or others for entertainment. Every participating student played the sport in the right spirit and enjoyed the game. All the participants, the winners and runners of each event were given certificates for encouragement.

The Sports Spree Event had

1. **Indoor Event**: Badminton, Carrom, Chess and Table Tennis (For both Men & Women)
2. **Outdoor Event**: Mini Cricket (Men), Throw ball (Women) and Tug of war (For both Men & Women)

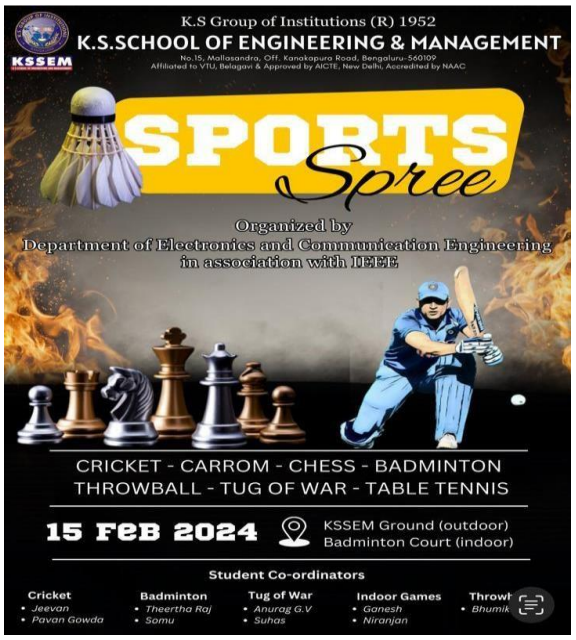

Fig 1a: Brochure of the Sports event.

Fig 1b: Student-Principal Interaction on the Sports Day.

Fig 2: Group Photo on the day of the Sport Event.

Badminton: A total of 8 doubles teams were registered for the men's section and 9 teams for the women's section. The game was conducted for 15 points with a golden point rule. And for the finals, 21 points with the best of two matches was played.

The results of the Badminton Doubles event are as follows.

Sl. No	Badminton	Winner	Runner
1	Men's	BITTU KUMAR(1KG22EC016)	THEERTHA RAJ G(1KG21E098)
		IMRAN (1KG22EC069)	SOMANNA H (1KG22EC113)
2	Women's	BRUNDA M (1KG22EC019)	SHIVANI N(1KG22EC104)
		CHAITRA J (1KG22EC080)	ROHINI R G 91KG22EC097)

Table Tennis: A total of 4 doubles teams were registered for the men's section and 4 teams for the women's section. The game was conducted for 11 points with a golden point rule. And for the finals, 21 points with the best of two matches was played.

The results of the Table Tennis Doubles event are as follows.

Sl. No	Table Tennis	Winner	Runner
1	Men's	KAUSHIK S (1KG22EC056)	TEJAS K (1KG21EC095)
2	Women's	SHREYA M (1KG21EC086)	SNEHA R (1KG21EC110)

Carrom: 10 teams were participated in the game from the men's section & women's side and winners were as below.

The results of the Carrom event are as follows.

Sl. No	Carrom	Winner	Runner
1	Mixed Doubles	MANOJ S (1KG21EC047)	PAVITHRA E (1KG22EC031)
2		LOHITH S (1KG22EC063)	MONICA G(DIPLOMA)

Chess: 10 participants were involved in the game from the men's section and 5 from the women's side and winners were as below.

The results of the Chess event are as follows.

Sl. No	Chess	Winner	Runner
1	Men's	MADHUPURI PAVAN (1KG22EC067)	HARISH R (1KG22EC043)
2	Women's	DEEKSHA L (1KG22EC028)	HARSHINI A (1KG21EC030)

Throw ball: 3 women's teams were involved in the game and the results were as below.

The results of the Throw ball event are as follows.

Sl. No	Throw ball	Winner	Runner
1	Women's	LATHA P N	CHAYA SHETTY
2		BHUMIKA B R	JAHNAVI CHITTURI
3		HARSHITHA R DAS	CHAITRA J
4		DEVIKA T S	JANAVI R
5		SPOORTHI V	SHIVANI
6		VRISHALI	BRUNDA
7		DILKHUSH VISHNOI	ANVITHA
8		ANIKA KAVYA TIPPINNI	PRAVALIKA

Mini Cricket: A total of 8 men's teams were involved in the game and the result was as below. The match was played for 5 overs on each side with one over power play.

The results of the Mini-Cricket event are as follows.

Sl. No	Mini-Cricket	Winner	Runner
1	Men's	MOHAMMED ZAID F	K SAICHENNA KESAVA NAIDU
2		JEEVAN A A	B MARUTHI CHOWDARY
3		MONISH S	K RAVITEJA
4		GANESH R	D HANUMANTH CHOWADRY
5		MAHESH K	S CHENNA KESAVA NAIDU
6		A YASHWANTH	D ABHINAY CHOWDARY
7		JOSHWA A	M ABHILASH
8		M BHARATH	B UDAY KIRAN

Fig 3: Group Photo along with Mini Cricket Finalist.

Tug of War: A total of 8 men's teams were involved in the game and the result is as below.

The results of the Tug of War event are as follows.

Sl. No	Tug of War	Winner	Runner
1	Men's	K JEEVAN SAI REDDY	ABHIRAM
2		B MARUTHI CHOWDARY	KUSHNA
3		A YASHWANT	CHETHAN
4		K SAI CHANNA KESHVA NAIDU	THARUN
5		G YUVA TEJA	NANI
6		G PAVAN KUMAR	SAI DEEPAK
7		M BHARATH	RAKESH
8		Y NITHEESH KUMAR	HARIKRISHNA

Fig 4: Girls involved in Tug of War Event.

Fig 5: Faculty coordinating in the Men's Tug of War Event.

Tug of War: A total of 6 Women's teams were involved in the game and the result is as below.

The results of the Tug of War event are as follows.

Sl. No	Tug of War	Winner	Runner
1	Women's	Y LAHARI	RADHIKA HA
2		RAKSHITHA	ROOPA K
3		VRISHALI	YOGHESHWARI S
4		SAI MEGHANA	SISRISHA G S
5		SPOORTHI V	NAYANA K
6		VENISHA CHOWDARY	PRADEEKSHA S
7		LIKITHA	SHRUSTIRAJ N
8		SRAVANI	PRASHANTHI S

The students and staff coordinated in this event successfully, taking forward for many such events in future. The event was supported by hostel warden for providing refreshment during the event.

Dear Sir,

Sub: Purchase Order for Personality Development Training Programme for 3rd Semester MBA.

With reference to the above, we are pleased to place the order for **Personality Development Training Programme** for 3rd Sem MBA **Students** at **K.S. School of Engineering and Management**, #15, Mallasandra, Off-Kanakapura Road, Bangalore – 109 as per the following specifications, terms & conditions.

Training Commercials

S.No	Training Description	Quantity	Rate	Amount
1	Personality Development Training Programme for 3rd Semester MBA.	58	18/Hour/Student (For 30 Hours)	31,320
GST			18%	5,638
Grand Total				36,958/-
Amount in Words: Thirty Sis Thousand Nine Hundred Fifty Eight Rupees only.				

Terms & Conditions:

- ✓ Training Dates for 3rd Sem MBA Students would be 11th, 12th, 13th, 14th, 15th December 2023.
- ✓ Pre-Assessment, Post assessment to be conducted and the portal to be made available for unlimited usage of the company specific mock test.
- ✓ Quantity May Vary Based on Actual.

Terms Payment:

- ✓ FULL PAYMENT TO BE MADE POST SATISFACTORY COMPLETION OF THE TRAINING

Thanking you,

Secretary
