DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

A Report on Industrial Visit-GTTC, Dandeli

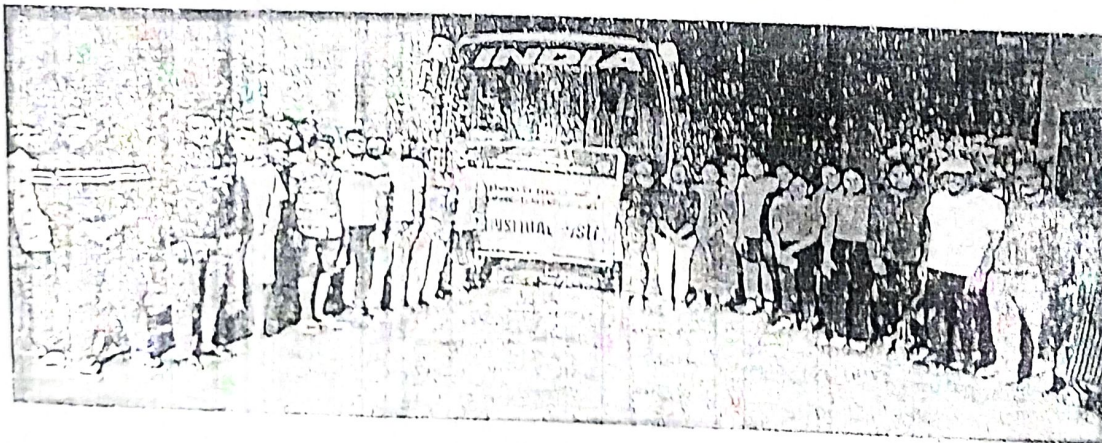

Department of Electronics and Communication Engineering has organized an Industrial Visit to Government Tool Room and Training Centre (GTTC), Dandeli for the sixth semester students on 20/07/2023. The faculties Dr. Manu D K and Mrs. Renuka V. Jali accompanied the students during the visit to Dandeli.

AIM of Industrial Visit:

Industrial visit is considered one of the tactical methods of teaching. The main reason behind this is it lets the student know things practically through interaction, working methods, and employment practices. Moreover, it gives exposure from an academic point of view.

The main aim of industrial visits is to provide exposure to students to the practical working environment. They also provide students with a good opportunity to gain full awareness of industrial practices. Through industrial visits, students get awareness about new technologies. Technology development is the main factor, of which students should have good knowledge.

Visiting different companies help students to build a good relationship with those companies. We know building a relationship with companies always will help us to gain a good job in the future. After visiting, industry students can gain a combined knowledge about both theory and practical. Students will be more concerned about earning a job after having an industrial visit.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Government Tool Room & Training Centre (GTTC) Dandeli is established by the government of Karnataka in 1994 and is located at Ambewadi Industrial Estate, Dandeli. GTTC is at the forefront of offering highly practical-oriented training courses in Design, Analysis, and production aspects of Tools, Dies & Molds. Precision Manufacturing & Mechatronics. These courses address the growing demand for high-quality technical human resource requirements across the manufacturing sector. With an emphasis on Teacher-Trainee engagement, following best-in-class traditions of the learning process, GTTC Dandeli celebrated its silver jubilee function in 2019.

It offers many training and certification courses on Industrial robotics, CAD, IOT, Automation, etc. The staff demonstrated working on embedded, automation, robotic machines, and 3D printing machines. Students enjoyed the ambiance and explored various industry-oriented lab equipment.
