Register a right of residence

NB: Students with a citizenship in an EU/EEA country do not need to apply for a residence permit but should register a right of residence with the local tax office after their arrival.

Tuition fee

The decision on admission is conditional to you paying the tuition fee for the first semester of your studies. By paying the tuition fee you confirm the offered place. You will therefore receive payment instructions for the fee for the first semester within a few days. The tuition fee must be paid within 3 weeks at the latest after receiving the payment instructions. The Swedish Migration Agency will only start processing your application for a student residence permit once the tuition fee payment has been received and processed. Therefore you should make the payment as early as possible to speed up the application for student residence permit. If you have any problems with the payment please contact the University, hs.ekonomiavd@ju.se.

Should you meet with unforeseen circumstances, resulting in a decision to withdraw from the programme, you might be entitled to a refund in accordance with the regulations at Jönköping University.
